

Petition against the 50-Caliber Weapons Ban, Assembly Bill A3211

We, the undersigned voting citizens of New York State, firmly oppose NYS Assembly Bill A3211, commonly known as the "The 50-Caliber Weapons Ban." Criminal activity with such firearms is statistically non-existent and there is no evidence that these firearms are the preferred weapons of any terrorist organization. Furthermore, this bill would make the possession of most rifled barreled shotguns, the most commonly used firearm of deer hunting sportsmen and women, illegal. The economic damage to the hunting and shooting sports, and the costs associated with the enforcement and reimbursement provisions of this legislation will only serve to further strain our over burdened state budget.
