

Petition against - The Ammunition Sales Act - New York State Senate Bill S342

We, the undersigned voting citizens of New York State, firmly oppose Senate bill S342, commonly known as the "The Ammunition Sales Act". Passage of this legislation will impose such severe requirements on ammunition manufactures that most would be unable to sell ammunition in New York State. For example, the Remington Arms factory located in Herkimer County, its largest employer, would likely close, resulting in loss of much needed jobs. The hunting and shooting sports in New York account for a near \$2 billion impact to the state economy. The economic repercussions associated with passage of this legislation would not only harm our already struggling economy, but would most likely result in loss of the hunting and shooting sports in our state, a significant part of upstate New York's heritage.
